Running SuMo DAQ in self-triggered mode:

Make sure SERDES interface is aligned

Enable self triggering. Specify ASIC with which to make board-wide trigger.

Adjust trigger threshold
Analog Card Waveform Viewer:

Trigger board using CH. 6 of ASIC[0]

Open waveform viewer: (refreshes on enter)
Analog Card Waveform Viewer:

- Shown is a noise readout on non-triggered channels
- Units of ADC counts
- Wraparound not corrected yet
